SCORPION II[®] TOWABLE ATTENUATOR

Add the versatility of a
Trailer Attenuator to your fleet.

J-Tech builds durable and innovative equipment to help keep your workers safe from the dangers of working near traffic. Give your workers the positive protection they need with trucks build by a company you can trust.

HELPING YOU MAKE ROADS SAFER WORKPLACES.

J-TECH

HIGHWAY SAFETY

The Scorpion II[®] TA from Traffix Devices is the world's first MASH tested, passed, and eligible towable attenuator.

The Scorpion II[®] Towable Attenuator requires little or no modification to the host vehicle or additional mounting hardware. This single-point attachment makes the installation of the Scorpion II[®] TA quick and easy.

HOST VEHICLE REQUIREMENTS

- 12,000 lbs. host vehicle (minimum).
- 20,000 lbs. rated pintle hook
- 1/2" thick x 32" wide steel frame plate
- 7 pin electrical connection
- No additional hardware required for connection to host vehicle

STANDARD FEATURES & SPECIFICATIONS

- MASH tested, passed, and eligible
- Replaceable crush modules
- Integrated electric brake system
- Telescoping Anti-Rotational System prevents separation from host vehicle
- LED brake, signal, directional, and running lights standard on Scorpion II[®] TA
- Rearward axle placement improves stability and prevents "bottoming out" on uneven surfaces
- Curved corrosion resistant cartridge tubes guide vehicles away from "coffin corner" of the truck, protecting full width
- Ground clearance: 12" +/- 1.0"
- Weight: 1925 lbs.
- Length: 17' 10"
- Width: 8'
- Height: 3'
