

SCORPION II[®] METRO TMA

The ultimate urban
protection vehicle.

The compact J-Tech METRO TMA increases protection for workers and drivers on fast-paced, lower speed environs of urban roadways, tunnels and bridges. Its short 8' TL-2 attenuator adds maneuverability while its 11.2' height makes it the solution for streets, bridges and tunnels with low clearances. The METRO combines safety virtues of a full-size TMA in an ideal compact urban package.

HELPING YOU MAKE ROADS SAFER WORKPLACES.

J-TECH
HIGHWAY SAFETY

The ultimate bridge, tunnel & urban street protection vehicle.

The MASH approved SCORPION® II METRO TMA is ideal for roadways with speed limits up to 50 MPH where maneuverability and safety are prime considerations. The J-Tech Metro is a TL-2 TMA ideally paired with a Ford F-550 with a curb weight of 7,500lbs. or greater. The METRO combines practicality with safety—featuring a crew cab, enclosed sign cage for non-projectile sign storage, a hydraulically raised arrow board and lockable toolboxes for underdeck storage.

SCORPION II® METRO TMA BENEFITS

- **MANEUVERABILITY:** Short 8' attenuator = tight turning radius, short tail swing.
- **VERSATILITY:** Low stowed height = perfect for city and tunnel work.
- **SAFETY:** Standard safety features in a compact package.
- **PROTECTION:** Reduce risk for motorists and workers.
- **CERTIFIED:** MASH approved TL-2.

J-Tech Highway Safety Scorpion II® METRO TMA shown with optional hydraulic 25-light arrow board.
